HOW IT WORKS

Incoming photos and letters are uploaded by the sender's mobile device, tablet or computer. Following payment processing, 4x6 photos, greeting cards and 8.5 x 11 letters print directly in your mailroom, utilizing the highest quality commercial printers. All personal mail is clearly marked with the incarcerated individuals name and facility identification number. The days of time-consuming photocopying, scanning or outsourcing costly third-party services are gone. From installation forward, the LIAM Safe personal mail system, properly receives, organizes and streamlines your physical mail process.

KEY FEATURES

- Immediate elimination of contraband
- Significantly reduces the amount of USPS mail
- Strengthens safety and efficiency
- Eliminates scanning, photocopying and third-party services
- Streamlines, organizes and archives
- Investigative dashboard
- No charge for paper or ink supplies
